

WE DELIVER KEY PROJECTS FROM INCEPTION TO COMPLETION

VZA is a group of construction and legal professionals providing project management, training and contractual services to firms in the private and public sector.

We offer this service with the knowledge we have gained through our key personnel over the past 20 years in multi-disciplinary engineering projects ranging from civil and building engineering, structural, water and sanitation and railway engineering.

Our objective is always to be Proficient, Professional & Pragmatic and to deliver projects that meets with the Client's expectations with regards to cost, quality, time, safety and performance within the built environment. Collaborative professional working relations with other professionals within the built environment ensures that we are always part of the solution to successfully execute projects.
